

# ER-Series Megaphones

◀ TOA's Newest Megaphones

**W**hether they are used for coaching or for crowd control in an emergency, megaphones remain a great vehicle for getting your message across. And, with 10 different models available, TOA offers an ER-Series megaphone to fit nearly every need.

Most models feature a breakthrough antibacterial treatment that protects the heavily-used handles and microphone elements. Ideal for situations where many people will be handling a megaphone, this unique antibacterial application kills most germs within 24 hours.

High-impact plastic horns deliver a smooth, ring-free sound. For maximum communication efficiency, TOA's easy-to-use megaphones offer extended battery life and sound coverage of up to 1/2 mile.

Distinctive whistle or siren signaling will get the crowd's attention and make sure your message is heard. To complete the line, both hand- and shoulder-held megaphones are available.

From rallies and movie locations to fires and emergencies, you can be sure TOA's ER-Series megaphones have got you covered.

## USER BENEFITS

- ▶ Lightweight construction for easy handling.
- ▶ Long battery life operation prevents downtime and reduces operating costs.
- ▶ Antibacterial treatment kills germs, protecting multiple users.
- ▶ Compact and lightweight models are easy to handle and store.
